

# Diane Lynne Winslow

Director, Division of Cultural Resources

(702) 895-2687  
Winslow6@unlv.nevada.edu

## EDUCATION

M.A., 1996 (Anthropology) University of Nevada, Las Vegas  
B.A., 1990 (Sociology) San Diego State University

## PROFESSIONAL EXPERIENCE

1/06 to Present

Director, Division of Cultural Resources for Harry Reid Center for Environmental Studies, University of Nevada, Las Vegas. Oversee all cultural resource projects undertaken by Division. Also continue to serve as Principal Investigator for cultural resource field investigations and data recovery programs. Both author and review technical reports, treatment plans and mitigation reports.

8/98 to 1/06

Archaeologist for Harry Reid Center for Environmental Studies, University of Nevada-Las Vegas. Principal Investigator for cultural resource field investigations and data recovery programs. Prehistoric laboratory supervisor. Conduct cleaning, cataloging, analysis of prehistoric archaeological materials recovered during data recovery projects. Author of technical reports, treatment plans and mitigation reports.

6/98-8/98

Archaeological Crew Chief for Statistical Research, Inc., Tucson, Arizona. Field crew chief for survey, surface collection and testing of some sixteen archaeological sites located in central Arizona. Directed field crews, complete all field paperwork, catalogued and packaged all recovered cultural materials for further laboratory analysis, assist field supervisor with testing decisions and site interpretation.

8/91-2/98

Archaeological Technician III for Desert Research Institute, Las Vegas, Nevada. Assisted during survey, testing, and extensive data recovery. Crew chief for survey, surface collection, and excavation. Project archaeologist for small to medium sized survey projects. Author of short technical reports and contribute sections to technical reports based on laboratory analysis. Conduct cleaning, cataloging, analysis of archaeological materials recovered during data recovery projects. Over the months of April through May of 1996 I was given the opportunity to be a graduate research assistant enabling me to focus attention on the completion of my M.A. thesis.

## MAJOR RECENT PROFESSIONAL PROJECTS

2006: Logandale Trails Phase 2 Inventory. Principal Investigator for Class III inventory and subsequent archaeological site treatment and mitigation for Bureau of Land Management, Las Vegas Field Office.

2005: Logandale Trails Phase 2 Inventory. Principal Investigator for Class III inventory and subsequent archaeological site treatment and mitigation for Bureau of Land Management, Las Vegas Field Office.

Firebrand Cave - Site 26CK5434. Directed laboratory analysis and co-authored resulting report of findings for Bureau of Land Management, Las Vegas Field Office.

2004: Logandale Trails Mitigation - Sites 26CK192 and 26CK194/1893. Principal Investigator for multi-phased mitigation program. Direct field crews and laboratory analysis. Authored field progress letters and resulting mitigation reports for Harry Reid Center for Environmental Studies.

Williams Gas Company 2003 Kern River Expansion Project (KREP). Directed laboratory analysis and co-authored mitigation report for California.

Mitigation - Site 26CK5686 Black Dog Mesa Archaeological Complex, Near Moapa, Nevada. Principal investigator for multi-phased mitigation program. Direct field crews and laboratory analysis. Authored field progress letters and resulting mitigation reports for Harry Reid Center for Environmental Studies (**In Progress**).

2003: Mitigation - Sites 26CK193 and 26CK194/1893. Principal investigator for multi-phased mitigation program. Direct field crews and laboratory analysis. Authored field progress letters and resulting mitigation reports for Harry Reid Center for Environmental Studies.

2002: Mitigation - Site 26CK5686 (Black Dog Mesa Archaeological Complex, Near Moapa, Nevada. Principal investigator for multi-phased mitigation program. Direct field crews and laboratory analysis. Authored field progress letters and resulting mitigation reports for Harry Reid Center for Environmental Studies.

2001: Mitigation - Site 26CK5686 (Black Dog Mesa Archaeological Complex, Near Moapa, Nevada. Principal investigator for multi-phased mitigation program. Direct field crews and laboratory analysis, conducted all cataloguing, analysis, prepared all special analysis materials, and final curation packaging. Author field progress letters for Harry Reid Center for Environmental Studies (In Progress).

Bureau of Land Management, Las Vegas Field Office, Logandale Trails Project. Co-Principal Investigator for archaeological probing at sites 26CK192 and 26CK194/1893. Directed all subsequent laboratory analysis, cataloguing and curation preparation, and co-authored resulting report.

Williams Gas Company 2003 Kern River Expansion Project (KREP). Performed Class I literature review and co-authored resulting inventory reports for California and Nevada.

Nevada Environmental Consultants Inc., Apex Industrial Park Inc. Prehistoric laboratory supervisor. Conducted all cataloguing, analysis, prepared all special analysis materials, and final curation packaging of prehistoric materials recovered from mitigation at sites 26CK3780, 26CK4415, 26CK5640, and analysis of collections from site 26CK415. Author of perishable and groundstone artifact sections in subsequent mitigation report.

2000: Treatment Plan for Site 26CK5686 (Black Dog Mesa Archaeological Complex, Near Moapa, Nevada. Principal investigator for multi-phased mitigation program. Direct field crews and laboratory analysis, author field progress for Harry Reid Center for Environmental Studies (In Progress).

USDA Forest Service, Meadow Canyon Prescribed Burn 2000 Inventory, Humboldt-Toiyabe National Forest, Nye County, Nevada. Co-principal investigator for inventory project - prehistoric cultural resources. Co-authored subsequent Class III inventory report for Harry Reid Center for Environmental Studies.

1999: Nevada Test Site Development Corporation and the United States Department of Energy, Nevada Operations Office. Principal investigator for inventory and testing phases of project. Directed field crews and authored resulting Class III inventory report for Harry Reid Center for Environmental Studies.

Nevada Environmental Consultants Inc., Apex Industrial Park Inc. Prehistoric laboratory supervisor. Conducted all cataloguing, analysis, prepared all special analysis materials, and final curation packaging of prehistoric materials recovered from mitigation at sites 26CK3780, 26CK4415, 26CK5640, and analysis of collections from site 26CK415. Author of perishable and groundstone artifact sections in subsequent mitigation report.

Parsons - Beltway, City of Las Vegas. Served on crew during mitigation phases for site 26CK3799 and 26CK4908 and conducted Native American interviews. Prehistoric laboratory supervisor. Supervised and conducted all cataloguing, analysis, and final curation preparation of recovered materials. Co-author of resulting mitigation report.

Treatment Plan, Black Dog Mesa Archaeological Complex (26CK5686/BLM 53-7216). Principal investigator for planned multi-phased mitigation program. Author of treatment plan for Harry Reid Center for Environmental Studies.

1998: Reid - Gardner Power Plant Expansion near Moapa, Nevada. Served as principal investigator for inventory and testing phases of project. Directed field crews, author of field inventory report, treatment plan for Harry Reid Center for Environmental Studies.

Nevada Environmental Consultants Inc., Apex Industrial Park Inc. Crew chief for survey and testing phases of inventory. Directed field crews, completed field paperwork, co-authored Class III inventory report and co-authored subsequent treatment plan for Harry Reid Center for Environmental Studies.

Archaeological testing of fifteen sites located in the Star Valley, central Arizona. Field crew chief multi-phased testing program, completed field paperwork and performed in field artifact cataloguing of recovered resources for Statistical Research, Inc.

Archaeological investigations at Kistler Aerospace, rocket launch and landing sites located on Nevada Test Site. Assisted with survey and recording of archaeological sites for inventory. Served as crew chief for data recovery and excavation of site 26NY10133 and coordinator for Native American monitoring program associated with data recovery. Cleaned and catalogued all artifacts recorded during mitigation for Desert Research Institute.

1997: Fishing Platform Project at Silver Lake, California. Under the direction of Dr. Claude Warren (University of Nevada, Las Vegas) and Dr. Joan Schneider (University of California, Riverside). Assisted field supervisors, mapped utilizing an electronic distant measurement instrument, co-author of article and illustrator.

Hells Canyon Project, Idaho. Under direction of Dr. Claude Warren (University of Nevada, Las Vegas). Assisted with analysis, interpretation and cataloguing of artifacts recovered during data recovery done in 1965.

Georgia Wheeler - Felts Oral History. Conducted oral history, background research, author of subsequent articles and book.

Historic Evaluations of Jr. Hot Cell and Engine Maintenance Assembly and Disassembly Facility (EMAD) on Nevada Test Site. Field crew member, conducted all background research and coauthor of resulting technical report for Desert Research Institute.

Huntington Mill Site, Keys Ranch, Joshua Tree National Monument. Under the direction of Dr. Claude Warren (University of Nevada, Las Vegas) and Dr. Joan Schneider (University of California, Riverside). Field crew chief, mapping utilizing an electronic distant measurement instrument, excavation, and cataloguing of artifacts recovered.

Fortymile Canyon Rock Art Survey. Field crew member. Assisted field supervisors, conducted on site analysis of artifacts, assisted with recording of sites, photographer, cataloguing photographs and assisted with production of resulting technical reports for Desert Research Institute.

Sidney Merrick and Georgia Wheeler Biography. Conducted extensive background research and oral history. Author of biography of Wheelers archaeological career in the Great Basin.

Native American Rock Art Study. Archaeologist, assisted University of Arizona ethnographic team with consultations and interviews during six week long study with seventeen Native American tribes on Nevada Test Site. Author of report for file, Desert Research Institute.

- 1996: Native American Graves Protection and Repatriation Consultations. Assisted Deputy Director and Laboratory Director with inventory, consultations with Native Americans, Archeological site visitations, subsequent analysis, and repatriation of artifacts. Desert Research Institute.
- 1995: Literature Search for Dr. David Hurst Thomas, American Museum of Natural History, New York. Compiled information regarding archaeological sites in Southern Great Basin having radiocarbon dates for publication.
- Archaeological Investigations at ER29-1. Field crew member, cataloging, analysis, and illustrations of the materials recovered during data recovery near Shoshone Mountain for Desert Research Institute.
- 1994: Endangered Site Monitoring Program. Project archaeologist for endangered site monitoring program. Recording, photographing, mapping, analysis and interpretation of all sites located during project for Desert Research Institute.
- 1993: Archaeological Investigations at Sample Unit ER18-1. Field crew member, cataloging, analysis, and illustrator of the materials recovered during data recovery program near Buckboard Mesa for Desert Research Institute.
- 1992: Archaeological Investigations at Sample Unit SU19-25. Field crew member during data recovery and excavation. Also assisted in the cataloging and analysis of the material recovered for Desert Research Institute.
- Archaeological Investigations at Sample Unit U19ao. Served as crew chief for portions of data recovery and excavation. Assisted in cataloging and analysis of all the artifacts recovered during data recovery on Pahute Mesa. Analyst for all perishable materials recovered. Contributing author of resulting technical report for Desert Research Institute.
- 1991: Archaeological Investigations at Sample Unit U19adPL. Assisted Laboratory Director in the cleaning, cataloging and analysis of artifacts recovered during data recovery on Pahute Mesa for Desert Research Institute.
- Archaeological Investigations at Sample Unit SU20-12. Field crew member during survey and testing on Pahute Mesa for Desert Research Institute.
